# Welcome to a World of Creativity and Growth

At Perseverance Street Theatre Academy, we believe every child holds the power to shine. Our academy is not just about acting; it's about nurturing confidence, building friendships, and unlocking a child's true potential. Through drama, your child will develop communication skills, emotional intelligence, and creativity—all in a fun, supportive environment.

Drama is an incredible tool for self-discovery. Our students learn to collaborate, express themselves, and think outside the box—all while having the time of their lives pretending, imagining, and performing. **It's where learning meets laughter**, and where your child's star can rise.

We can't wait to welcome you and your child into our academy family. Let the journey begin!

PERFECT FOR HOMESCHOOLERS

# Storydrama

**AGES: 8-11 YEARS**

Our storydrama workshops provide an ideal opportunity to ignite imagination, boost confidence, and enhance quick-thinking abilities—all while having a great time! Through engaging games and imaginative storytelling, your child will learn to think on their feet, work together with peers, and express themselves with joy and enthusiasm. Regardless of whether they are shy or outgoing, every child will flourish in this safe, supportive, and laughter-filled atmosphere. Witness your child's creativity take flight as they uncover the magic of dramatic play and embrace those delightful "yes, and!" moments!

Home School Parents are welcome to chill and listen in. We have a dedicated zen mezzanine level for parents to be closeby.

# Acting Essentials

**AGES: 11-14 | GRADES 7-9**

For teenagers, mastering improvisation is more than an acting skill—it's a gateway to personal and professional excellence. Neuroscience shows that during adolescence, the brain undergoes a remarkable phase of development, particularly in areas responsible for creativity, focus, and emotional regulation.

Improvisation taps into these areas, strengthening neural pathways and enhancing adaptability, problem-solving, and resilience. It also promotes vital face-to-face interactions, helping teens develop social intelligence and empathy in a world increasingly dominated by screens. By embracing imagination, they sharpen their focus, learn to think on their feet, and build the confidence to own any stage or life challenge. This is where artistry meets science, preparing teens not just to act but to excel in every aspect of life.

This foundations course is highly recommended for young people wanting to audition for our youth theatre productions or musical theatre programs in term two.
